

AGREED MINUTES

between the Aeronautical Authorities of the French Republic and the Aeronautical Authorities of the Russian Federation

Delegations representing the Aeronautical Authorities of the French Republic and the Aeronautical Authorities of the Russian Federation met in Paris on 22 March 2017 for an informal technical meeting related to air services between the two States.

The list of the two delegations is attached as Appendix I.

The discussions were held in the friendly and cordial atmosphere that characterizes the relationship between the two countries.

As regards the local combination services, the Russian delegation expressed a request of at least ten (10) additional frequencies. The French delegation took note of this demand.

The two delegations agreed on the following:

1. Local combination services

In item a) of the paragraph 5.1.1. of the Confidential Memorandum of Understanding (CMoU) between Aeronautical Authorities of 4 July 2001, as amended: "sixty-five (65) services per week with any type of subsonic aircraft" is replaced by "seventy-three (73) services per week with any type of subsonic aircraft".

Among these eight (8) additional frequencies, three (3) frequencies shall be added to the actual operation of the Russian designated airline on the Moscow-Lyon Route, one (1) frequency shall be added to the actual operation of the Russian designated airline on the Ekaterinburg-Paris Route, and the allocation of the four (4) remaining frequencies to be operated by the Russian designated airlines will be allocated by the Aeronautical Authorities of the Russian Federation.

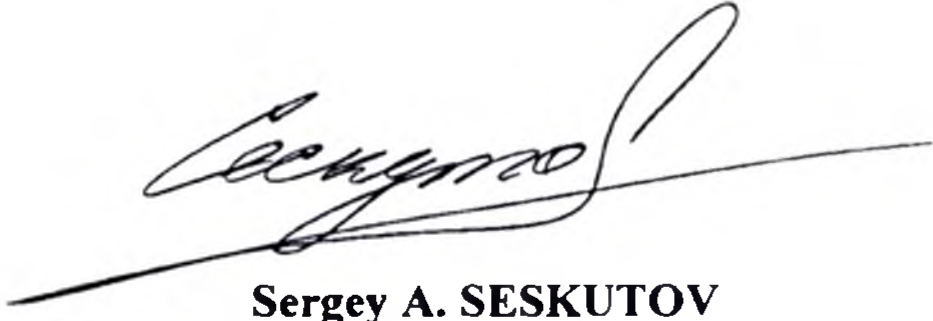

4. Final provisions

Both Aeronautical Authorities agreed to apply the provisions of the present Agreed Minutes for the management of air services between their two States as from the date of its signature.

Done at Paris, on 22 March 2017, in two original copies, each in the English language.
